

Moisture Control Mastery

6 LESSONS · ALL LEVELS

Welcome to Moisture Control Mastery. I walk you through every layer of moisture defense so your reeds and drones stay dry, stable, and in tune.

- ☐ **01 All About Moisture Control Systems**
I start here so you understand every piece of the moisture puzzle before we go shopping for solutions.
April 18, 2024 · 1h 24m · Setup & Maintenance

- ☐ **02 How to Protect Your Sound: What Every Piper Needs to Know About Moisture, Humidity and Bagpipe Reeds**
Now I show you what humidity actually does to your reeds, so you know exactly what we're protecting against.
November 9, 2023 · 13m · Setup & Maintenance

- ☐ **03 Introducing The Tone Protector**
I bring in the tool I built to solve the problem we just diagnosed.
September 15, 2017 · 8m · Setup & Maintenance

- ☐ **04 What is a Tone Protector? The Complete Tone Protector Lineup: Every Product Explained**
I break down the full lineup so you can pick the exact setup that matches your pipes.
July 17, 2026 · 17m · Setup & Maintenance

- ☐ **05 Tone Protector Reed Safe: Digital Chanter Cap & Split Stock with Two-Way Humidity Control**
I go deep on the two-way humidity model so you can dial in precise control, not just protection.
November 15, 2019 · 1m · Setup & Maintenance

- ☐ **06 How Does an 8 Year-Old Reed Sound? The Ultimate Tone Protector Experiment**
I finish with real proof — you hear what proper moisture control does to a reed over years, not days.
