

Piping Tech Toolkit: Apps, Metronomes & AI

6 LESSONS · ALL LEVELS

Welcome to Piping Tech Toolkit: Apps, Metronomes & AI. I built this course to give you exactly this: the apps, tools, and AI assistants that can support your practice, laid out from simple to more involved.

- ☐ **01 Discover the Top 7 Apps Every Piper Must Have to Unleash the Power of Your Smartphone to Play Better**
Start with a quick tour of the apps most pipers actually use, since this sets up everything else in the course.
July 1, 2023 · 9m · Practice Tips

- ☐ **02 Piper's Metronome Tutorial: Getting Started with the World's #1 Metronome for Pipers**
This introduces a dedicated metronome tool built for piping, which is more useful than a generic music app.
January 8, 2022 · 63m · Practice Tips

- ☐ **03 Revolutionize Your Tuning with InTune Mic: Wireless Clip-on Instrument Microphone for Smartphones**
This is a short introduction to a clip-on tuning tool, giving you the basics before you go deeper.
November 19, 2022 · 5m · Tone & Tuning

- ☐ **04 Getting Started with the InTune Mic for Faster and Easier Bagpipe Tuning**
This builds on the introduction with the setup steps needed to actually use the tool day to day.
December 30, 2022 · 17m · Tone & Tuning

- ☐ **05 Practical Ways to Use ChatGPT and AI to Improve Your Piping**
With the hardware side covered, this shows practical ways an AI chatbot can support your practice and learning.
September 18, 2024 · 1h 7m · Community & Extras

- ☐ **06 Will ChatGPT Replace Your Music Teacher? How AI is Revolutionizing Music Education Right Now**
This closes the course by putting AI tools in perspective, so you know what they're good for and where a teacher still matters.
